Warden Sage has been informed that an appropriation of \$2.500 for completing Durston-ave, the votes for those offices, under the supervision of the referee and the

principal approach to the State prison here, was passed by the Legislature before adjournment. The ork contemplated under the appropriation is the grading of the roadbed by convict labor and the grading of the roadied by convict labor and the building of a retaining wall along the west side of the avenue where it runs parallel with the Secor Road, the main thoroughfare of the village from the railroad station. The stone for the wall is now being cut at the prison, and the Warden will be ready in a short time to begin operations. As it is a work of great importance to this village, the Warden expects the taxonyers to assist in defraying the expense, such as paying for the cement used in the wall and the skilled labor required to lay the stone, and also for fransporting the stone from the prison, while the rough work is done by the prisoners. The road itself will be graded and macadamized by the State, and Warden Sage will make the operation an experimental work, testing the capabilities of the convicts, the number of officers needed to watch them, and other details it is desirable to learn in relation to the use of prisoners in building roads generally. Village Preside at William Brandreth had a consultation with the Warden yesterday in regard to the matter, and, being greatly in favor of the undertaking, will give all the assistance in his power. The village's share of the expense will probably be about \$1.000.

held for examination in Yorkville Police Court on Saturday on a charge of having drugged Edward Fesser, an artist, with chloral, on Friday night, was honorably discharged by Magistrate Simms yesterday. Policeman John T. Conway, of the West Forty-seventh-st. station, saw Mr. Weyburn dragging Mr. Fesser from a cab in front of the Hotel Lin-coln, at Broadway and Fifty-second-st. Mr. Weywas helpless. Conway rang for a Roosevelt Hospital ambulance, and when it arrived Dr. Sutphen said Mr. Fesser was not intoxicated, but had been drugged with chloral. Mr. Fesser was taken to the hospital, and Conway atrested Mr. Weyburn.

Mr. Weyburn indignantly denied that he had drugged the artist. He said they were old friends and had been drinking together, and that Mr. Fesser had got dead drunk. Fesser accompanied Weyburn to Yorkville Police Court yesterday. The men talked together until the case was called.

Henry W. Mayer, of the firm of Hoadly, Lauterbach & Johnson, who appeared for Mr. Weyburn, said he was an old client of the firm, and that his respectability was unquestioned. Magistrate Simms then examined Mr. Fesser, who said it was utterly untrue that he had been drugged, or that he had taken chloral at all.

"We are particular friends, Your Henor," said he. "Were you intoxicated on Friday night;" "Well, I can't say I was sober," replied Mr. Pesser, "I think both of us had taken a little too much drink."

APPALLING FIGURES.

WHICH PROVE THE GREAT CARE THAT SHOULD

BE EXERCISED BY THOSE WHO LOVÉ LIFE. The average number of deaths in New York City for five years has been 690 each week. Of this number 288, or nearly one-half, have been from pneumonia, consumption, or some pulmo-from pler foot Bloomfield St., 3 piers south of West nary trouble. This is not theory, but actual figures made by the Board of Health. Nearly eighty thousand people in five years in New York City alone have died from throat and lung troubles! When we think of the thousands who had throat and lung diseases, and who have recovered, how terrible an array of facts does this

Doctors have said in the past that most of these troubles were incurable; they are now finding such is not the case. The best physicians ing such is not the case. The best physicians declare that a man or woman, even in an advanced stage of consumption, can live for years, and even to old age, by a careful and constant use of pure whiskey, but it should be remembered that the word pure is always used by physicians. There is but one absolutely pure whiskey, and that is Duffy's mait. In its purity rests its great power, although it has other qualities possessed by no other whiskey. A child can take it without any evil effects, and for restoring partially consumed lungs, building waste tissue, and giving health and strength in the place of disease and weakness, it stands absolutely without a rival. Care should be taken to secure only the genuine. Do not trust any dealer who tries to substitute something in the place of Duffy's, but insist on having what you call for. having what you call for.

REAL ESTATE.

A WEEK OF DISAPPOINTMENTS, BOTH FOR THE AUCTION ROOMS

AND THE BROKERS. There is little to be said about the record of the real-estate market for the last week, and the less said the better, perhaps, for it was a week of disappointments and setbacks on every side. Several private sales, for which the brokers had been working for weeks with fair hopes of suc-cess, fell through completely, while the auction rooms, which promised so many good things for prospective bidders a week ago, collapsed almost entirely, so far as the large offerings were concerned. Not a bid was received for the attractive Broadway and New-st, parcels, the proposed sale of which had been well advertised by George R. Read, while the suit of an infant heir forced the postponement of the sale of the Bathgate estate lots, in the Twenty-fourth Ward.

Explanations without end have been offered for

the general inactivity of the market, but probably no more definite statement nor one nearer the actual facts can be made than that present conditions are due to the general feeling of distrust as to the future of the market, which has taken hold of both buyers and sellers, inducing the former to hold their property at its full value and the latter to wait for concessions which apparently there is little prospect of their realizing in the near future. So, while dulness is and has been the distinguishing feature of this season's realty market, firmness and strength have been charac-teristics hardly less prominent. The few sales of importance that have been made this spring have been accompanied by excellent prices, and other parcels offered have failed to sell simply because the owners have as a rule been inclined to take the more hopeful view of future conditions, and thus have been content to hold their investments where a return of 4 or 5 per cent could be obtained.

The spring market for realty is practically over, and little will be done until the fail season opens, In certain sections of the city the demand for property has been as good as could have been hoped for. This is the case especially in highclass properties along Fifth, Sixth, Eighth and Third aves., while on the West Side there has been a fair demand for especially desirable sites for lwellings and high-class apartment-houses. Along these lines further developments are looked for by the brokers, while in dwellings the fall renting season promises to be better than usual. THIS WEEK'S AUCTION SALES.
